EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with D. J. Stockley on December 27, 2004.

The application has been amended as follows:

The language of claim 5 was canceled in its entirety, and replaced with the following language:

-- 5. The image forming apparatus of claim 3, wherein the second guide member is provided in plural numbers. --

The language of claim 9 was canceled in its entirety, and replaced with the following language:

-- 9. The image forming apparatus of claim 1, wherein the first guide member is provided in plural numbers. --

The language of claim 10 was canceled in its entirety, and replaced with the following language:

--10. A paper guidance system for an image forming apparatus, comprising:

Art Unit: 2854

a first guide member having a lower surface thereof contacting an upper side of a paper,
and a notch that is disposed on the lower surface, for aligning a leading edge of the paper
so that the leading edge of the paper is aligned in parallel with a feeding roller;
a second guide member contacting the upper side of the paper and formed in a curved
shape; and
a third guide member contacting a lower side of the paper that is guided by the second
guide member.--

These changes were made to keep the claim language (of claims 5, 9, and 10) identical to the language as originally filed. In the amendment filed December 02, 2004, the language of claims 5, 9, and 10 were inadvertently changed. This amendment corrects that inadvertent error.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: Claim 16 was allowed because the prior art of record does not teach or render obvious the total combination for a paper guidance system, wherein the plurality of guide members comprises a first guide member disposed near to the feeding roller, the first guide member including a notch that aligns a leading edge of the paper so that the leading edge of the paper is aligned parallel with a rotation axis of the feeding roller.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dave A Ghatt whose telephone number is (571) 272-2165. The examiner can normally be reached on Mondays through Friday 8:00 AM to 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Andrew H Hirshfeld can be reached on (571) 272-2168. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
